HOW WE RANK PASSPORTS

TRAVEL – 50%

We relied on government data from 199 passport-issuing countries and territories, combined with real-time intelligence and proprietary research. It includes a Mobility Score (MS), measuring ease of travel, which focuses on visa-free (VF) travel, visa on arrival (VOA), and eTA and eVisa (if issued within 3 days).

TAXATION – 20%

We relied on data from our network of tax vendors, news sources, and tax authorities themselves. We assigned the lowest score of ten to countries that tax citizens no matter where they live (ie: the United States), scores of 20 or 30 to countries that allow citizens to relocate to avoid tax (ie: Finland), 40 for those that don't tax foreign incomes of resident citizens (ie: Maldives), and 50 for countries with zero tax (ie: Vanuatu).

DUAL CITIZEN – 10%

We relied on embassy data and our experiences to assess the ability to hold dual citizenship ranging from a score of 10 for strictly forbidden (ie: China) to a score of 50 for freely allowed (ie: Canada).

PERCEPTION – 10%

We relied on the World Happiness Report, the Human Development Index, and subjective factors from our networks' experiences to determine how each country's citizens are received and recognized.

FREEDOM – 10%

We relied on data and news reports on mandatory military service, government surveillance, press freedom, and other factors to determine the personal freedom of citizens, travelers, and expats, with scores from 10 to 50.

INDEX METHODOLOGY

THIS INDEX RANKS PASSPORTS ON FIVE FACTORS:

1. Visa-Free Travel	50%
2. Taxation of Citizens	20%
3. Perception	10%
4. Dual Citizenship	10%
5. Personal Freedom	10%

The Index is the result of aggregating data from nearly twenty unique sources, and based on priorities that Nomad Capitalist believes are important to citizens and potential citizens of each given country.

PURPOSE

To Debate:

We wish to open up debate on topics like freedom of travel, borders, visas, citizenship rights, and other key policy areas like immigration and taxation.

To Educate:

A passport is more than just a travel document – it helps form our identity. We aim to show how empowering a second citizenship can be by removing restrictions and opening your life to new opportunities.

To Elevate:

Having a second citizenship lets you transcend boundaries. It enhances your freedom to travel, work and do business while providing peace of mind in a volatile world.

ABOUT THIS INDEX

THE SEVENTH ANNUAL EDITION OF THE NOMAD CAPITALIST PASSPORT INDEX

The Nomad Passport Index was designed to educate aspiring global citizens about the true value of the world's citizenships.

While most indices – and most people – think of a passport only in terms of travel privileges, we realized that citizens of different countries deal with far different requirements to pay tax, live freely, comply with regulations, and avoid scrutiny when traveling.

In that regard, the number of countries a passport holder may visit does not tell the whole story.

The Nomad Passport Index speaks to those seeking personal freedom and financial prosperity in a changing world by more deeply analyzing the true value of each passport.
